

## Austria New Energy Storage

---

Who owns gas storage in Austria? The entire storage infrastructure in Austria is owned by OMV AG and RAG, as well as by joint ventures between RAG and astora, Gazprom Export LLC and Uniper Gas Storage GmbH. Owing to the geological conditions, most of the storage facilities are pore storages, since depleted natural gas fields are used for gas storage. What is the projected capacity of storage in ? Looking forward to , overall growth is expected to be 37%, with an installed capacity of 1.1 GWh. Of this, household storage is projected to be installed at 670 MWh, a small increase, accounting for 61% of the total. Commercial and industrial storage 280 MWh, steady growth. Are there any solar storage subsidy programs? Last year, there were two major solar storage subsidy programs: KLIEN and &#214;MAG. &#214;MAG subsidized 31,000 energy storage systems at a rate of 200 EUR/kWh. Since &#214;MAG's funding was expected to run out in , KLIEN was introduced as a supplement to &#214;MAG. NGEN commissions Austria's largest battery storage systemFeb 13, &ensp;&#;&ensp;Slovenia-based NGEN put Austria's largest battery energy storage system into operation. It installed it in record time - just seven months. Austria commissions its largest battery Feb 10, &ensp;&#;&ensp;The storage facility featuring six Megapack 2XL systems from Tesla was built over a seven-month period in the vicinity of a wood gas generator and a solar farm. The project has a power output of 12 MW and New Addition of 829 MWh, a Nearly 20Austrian energy storage market to reach 3.9 GWh, 5% of new installations in Europe In , Austria adds 829 MWh of new installations, a 19% decrease from and the fifth highest in Europe! Austria putting EUR18 million for medium-scale Jun 14, &ensp;&#;&ensp;Some EUR17.9 million (US\$19 million) in grants will be made available for 'medium size' distributed-scale energy storage projects in Austria. The country's Climate and Energy Fund has launched a new call Austria offers EUR17.9 million to fund storageJun 14, &ensp;&#;&ensp;The Austrian authorities have offered EUR17.9 million (\$19 million) to fund medium-sized electricity storage systems, with EUR10 million from the climate action protection ministry and EUR7.9 Austria needs 8.7 GW of battery energy Jul 18, &ensp;&#;&ensp;Austria will need a battery energy storage capacity of 8.7 GW by to address the expansion of renewable systems and the rising power demand, according to a study published on Thursday. New storage technologies Key topics in current national and international research projects include the selection of suitable storage technologies, the development of new materials and components, the integration of Austria Expands Solar Incentives with Battery Aug 20, &ensp;&#;&ensp;Austria quadruples subsidies as demand for solar and battery energy storage systems soars, adding 218 MW PV and 200 MWh storage capacity. Austria's Largest Battery Storage Facility CommissionedOct 21, &ensp;&#;&ensp;In the Austrian federal state of Carinthia, the second phase of the Arnoldstein-Gailitz energy storage facility has been commissioned, making it the largest battery storage NGEN Launches the Largest Energy Storage Facility in AustriaFeb 17, &ensp;&#;&ensp;Slovenian company NGEN, specializing in energy storage systems, has launched Austria's largest energy storage facility to date, with a capacity of 24 MWh. Located in the city NGEN commissions Austria's largest battery storage systemFeb 13,
