

## Belize solar System Franchise

Will the government of Belize invest in solar energy?The Government of Belize intends to encourage investment in utility solar-energy facilities. However, it has not yet publicly announced a request for proposals. On a smaller scale, the Government of Belize has installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid.

Will Belize Electricity compensate you for excess solar energy?The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite. Will grid-connected solar systems be regulated in the future?No. Efforts are being made by the Public Utilities Commission and the Ministry of Public Utilities Energy and Logistics to regulate grid-connected solar systems in the future.
