

## Costa Rica Air-Cooled Energy Storage Project

---

The companies Proquinal - a member of the Spradling Group - and Swissol, accompanied by government authorities, inaugurated the largest and most innovative project for the storage of alternative energy in Costa Rica, which will help reduce the pressure on public electricity generation SINEXCEL and Wasion Energy have announced the commissioning of the Coopesantos Wind Power Energy Storage System, a new grid-connected facility located in Costa Rica. The project is reported to be the first in Central America to feature SINEXCEL's 1250kW energy storage inverter (PCS). The system was CARTAGO, Costa Rica, July 9, /PRNewswire/ -- The Coopesantos Wind Power Energy Storage System, jointly developed by SINEXCEL (300693.SZ) and Wasion Energy, has officially entered operation in Costa Rica. The commissioning ceremony was attended by local government officials, marking a On June 26, the construction of the world's largest power generation-side energy storage project in Ulan Chab, Inner Mongolia, officially began. This 1 GW/6 GWh project, using lithium iron phosphate (LFP) technology, aims to enhance grid stability and support China's renewable energy transition. Each year, thousands of people flock to Costa Rica's northern highlands to enjoy the country's largest landlocked waterbody: Lake Arenal. Situated beneath the majestic Arena Volcano and surrounded by lush, forested hillsides and pasture lands, its 33-square miles of blue waters are frequented by Largest innovative photovoltaic generation and energy storage project opens in Costa Rica. The system uses solar panels to charge batteries during periods of lower energy cost and then, subsequently to deliver stored energy during the two peak periods when cost is highest. Swissol implemented the On July 10, , Costa Rica made a remarkable leap in renewable energy efforts with the official launch of the Coopesantos wind energy storage system, a collaborative project between SINEXCEL and Wasion Energy. This occasion, attended by local officials, symbolizes a significant milestone in the Costa Rica Powers Up Landmark Energy Storage As the first project in the region to feature SINEXCEL's advanced kW Power Conversion System (PCS), the system is engineered to deliver high performance through three core strengths: SINEXCEL, Wasion Energy, Costa Rica, energy storage, 1250kW SINEXCEL and Wasion Energy have completed a grid-connected energy storage project in Costa Rica, marking their first deployment in Central America. SINEXCEL and Wasion Energy Power Up Landmark Energy As the first project in Central America to integrate SINEXCEL's advanced energy storage inverter 1250kW PCS--it delivers exceptional performance through three key THE LARGEST ENERGY GENERATION AND STORAGE Compression Energy Storage Power Generation Project Citywide compressed air energy systems for delivering mechanical power directly via compressed air have been built since . Cities More Than 98 Percent of Costa Rica's Energy Is Costa Rica's goal is to transfer 70 percent of public buses and taxis to clear air alternatives, like electricity, by , and make them entirely emission-free by . Costa Rica Confirms Energy Storage Project by Largest innovative photovoltaic generation and energy storage project opens in Costa Rica. The system uses solar panels to charge batteries during periods of lower energy cost and then, subsequently to SINEXCEL and Wasion Energy Launch a Groundbreaking On July 10, , Costa Rica made a
