

## Estonia off-grid energy storage power station

ESTONIA MOVES FORWARD WITH A GROUNDBREAKING Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The Estonia inaugurates its largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County. Baltic Storage Platform secures landmark EUR85.6 million financing The Baltic Storage Platform joint venture - bringing together French independent solar power producer Corsica Sole, Estonia's leading renewable energy developer Evecon, and Mirova, an affiliate of Natixis Groundbreaking for 400MWh BESS in Estonia Kiisa is the location of an emergency power plant operated by TSO Elering. The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC Estonia moves forward with a groundbreaking The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, putting Estonia in the best NIB finances two large-scale battery energy storage systems are essential for energy independence, ensuring grid stability and enabling more efficient integration of renewable energy sources." Hertz 1, located in Kiisa, has been Eesti Energia Unveils Estonia's Largest Battery Storage System Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru
