

## Georgia rural rooftop solar panels and prices

---

How much do solar panels cost in Georgia? Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Georgia homeowner needs a 12.35 kW solar panel system to cover their electricity needs, which comes out to \$31,703 before incentives. Prices range from \$26,948 to \$36,458, but after the federal tax credit, that drops by 30%. How much does a 5 kW solar system cost in Georgia? While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia? What tax credits do solar panels get in Georgia? The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of , you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits. Is Georgia a good state to install solar panels? With higher than average electricity prices and abundant sunshine, Georgia's a pretty great state for solar energy. It may not have the best local solar incentives, but as a Georgian, you can still take advantage of solar's most valuable incentive, the Federal Tax Credit. Here's what you should know about installing solar panels in the Peach State. How much do solar panels cost? The cost of solar panels in Georgia is currently lower than the average price of \$3.00 per watt across the United States for residential solar power systems. The size of a solar panel system affects the installation cost, with larger installations having a lower cost per watt due to 'bulk pricing'. Can a solar power system lower your electricity bill in Georgia? On average, a solar power system in Georgia can lower your electricity bill and pay for itself over time. Below you can see power generation, cost, and savings of different system sizes. Go Solar for less than your cell phone bill. Purchasing solar panels is no small task.
