

## Guinea Base Stations and Communications

Does Spacecom provide satellite coverage to Guinea?Spacecom is proud to provide satellite coverage to Guinea via our AMOS satellite fleet. As an innovative telecom satellite company, we offer tailored, end-to-end telecommunication solutions to Guinea's media and broadband industries with innovative broadcast and broadband satellite service technologies allowing for cross-region connectivity. Which satellites can be brought to Guinea?Any one (or more) of these services can be brought to Guinea using either the AMOS 7 or AMOS 17 satellites. Feel free to explore our Guinea satellite map to get more detailed geographical and regional information. For more information, please contact our Sales and Marketing team. Is ubiquitous global communication possible in Equatorial Guinea?Enabling Ubiquitous Global Communications in Equatorial Guinea Via the Transformation of Getesa. Am. J. Eng. Technol. Will Guinea develop a satellite project?Guinea welcomed a delegation from AirSat Technology Group for collaborative talks on developing a satellite project for Guinea. Does Guinea need satellite technology to improve digital connectivity?Guinea's ambitions to enhance the country's connectivity reflect a broader trend within Africa to utilise satellite technology to achieve this goal. Countries like Algeria, Egypt, Angola and Nigeria have invested significantly in enhancing digital connectivity through government-based satellite projects. Why did GETESA become a national mobile network of Equatorial Guinea?AB - This paper focuses on the modernization of the first national Mobile Network of Equatorial Guinea, called GETESA. The government's decision to invest and take full control of the network was motivated by the lack of network quality, which had poor capacity, with 69% of the network coverage Received-Signal-Code-Power (RSCP) below -95dBm. International capacity comes via the ACE submarine cable landing at Kip&#233; (Conakry), operated nationally by GUILAB, while the state backbone company SOGEB runs the national fibre network and offers transport and colocation, together providing the primary routes from users to upstream transit. Enabling Ubiquitous Global Communications in Equatorial Guinea Dec 28, &#2017;In addition to network evolution, a single RAN provides a simplified network topology, deployment, operation, and maintenance: one base station and one controller for (PDF) Enabling Ubiquitous Global Jan 1, &#2017;The Swap from 2G to 3G is at 89% with 134 modernized base station while the Roll-Out of 4G is at 94% with 87 LTE base stations implemented. The modernization project has transformed GETESA to be Guinea and Chinese Firm Discuss Potential Satellite Project Jan 29, &#2017;Guinea's interest in developing such a satellite project aligns with the ambitions of several African countries scheduled to launch their communication satellites in the next decade. Communication in Guinea How is the communication system in Guinea? Here, Broadcast media include &#2013;Government maintains control over broadcast media; single state-run TV station; state-run radio broadcast Guinea | Digital Watch ObservatoryNov 3, &#2017;Guinea's connectivity stack is increasingly 'sovereign by design.' International capacity comes via the ACE submarine cable landing at Kip&#233; (Conakry), Guinea Satellite Operator - Spacecom - Global Communication GUINEA SATELLITE OPERATOR Spacecom is proud to provide satellite coverage to Guinea
