

## Huawei Philippines PV Inverter

---

Is Huawei a good inverter manufacturer? In , Huawei entered the home photovoltaic inverter market with a very successful product at a competitive price. Two years later, Huawei introduced the second generation of home hybrid inverters. Huawei is a Chinese consumer electronics, IT equipment, and solutions manufacturer founded in and headquartered in Shenzhen. What is a second generation Huawei inverter? The second generation of Huawei inverters hit the market in April , two years after the first. The SUN2000-L1 series covers powers from 2kW to 6K, features two MPPT inputs and an operating voltage range from 100V to 600V. The SUN2000-L1 model is a hybrid inverter ready to connect to an energy storage facility. Can a Huawei inverter be used under a photovoltaic module? Optimizers can be used under selected PV modules, and optimizers can be installed under each photovoltaic module. Huawei inverters even have a built-in IV voltage- current curve tester. Huawei inverters are equipped with the PID recovery function, which limits the degradation of photovoltaic modules by the PID phenomenon. Do Huawei inverters enable Island operation? Huawei inverters enable island operation to a limited extent. In addition to energy storage, island operation also requires the so-called back-up box. Thanks to the back-up box, in the event of a power grid failure, the inverter switches to island operation. After the failure is removed, the inverter switches to on-grid operation. Is Huawei a leader in the photovoltaic industry? Huawei is considered a leader in the communications and mobile telephony industries, and for several years it has also been one of the leading manufacturers in the photovoltaic industry. In , Huawei entered the home photovoltaic inverter market with a very successful product at a competitive price. What is the warranty for Huawei inverters? The factory warranty for Huawei inverters is 10 years for three-phase inverters SUN2000 xxx KTL-M0, SUN2000 xxx KTL-M1 and single-phase inverters SUN2000L. The warranty starts 30 days after shipment from the Huawei factory. The warranty can be extended to 15 or 20 years. [Huawei Inverters | Sungid Energy](#)
