

## Huawei Swiss Power Energy Storage Vehicle

---

Huawei's 3,000km solid-state battery patent with 5 Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes. Huawei Patents 3,000km Solid-State Battery with 5-Minute Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres. Huawei's 3,000 km Solid-State EV Battery: Is It the Game Huawei has filed a patent for a new type of solid-state electric vehicle (EV) battery that could significantly change the future of clean transportation. The technology promises a driving range of up to 3,000 China's tech giant claims 1,800-mile range for solid Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly two to three times higher than today's typical electric Huawei is working on EV battery that will last for 1,800 miles on Huawei is developing a solid-state EV battery it says can deliver 1,800 miles of range after a five-minute charge. The project appears in a patent filing, suggesting it has Energy Storage System Products List | HUAWEI Smart PV GlobalEnergy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. Huawei says its new solid-state EV battery can Huawei is the latest in a growing list of automakers and tech companies that are exploring the possible benefits of fitting an EV with solid-state batteries, with the likes of BMW, Mercedes-Benz, Huawei Announces 3,000-km Sulfide-Based Solid Thanks to their solid electrolytes, SSBs promise to be much safer, virtually immune to thermal runaway, and with energy densities that far exceed the best Li-ion cells produced today. Accelerating PV and energy storage To mark the growing importance of energy storage, Energy-Storage.news, its sister website PV Tech and Huawei have teamed up on a special report exploring some of the state-of-the-art BESS technologies. Huawei's new 3,000 km solid-state battery patent Huawei's roadmap assumes those costs fall by an order of magnitude as production scales beyond 1 GWh. Rather than building its own cell lines, the company says it will license the IP -- a strategy mirroring its Huawei's 3,000km solid-state battery patent with 5-minute charge Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra Huawei's 3,000 km Solid-State EV Battery: Is It the Game Huawei has filed a patent for a new type of solid-state electric vehicle (EV) battery that could significantly change the future of clean transportation. The technology promises a China's tech giant claims 1,800-mile range for solid-state EV Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly two to three times higher than today's Huawei says its new solid-state EV battery can give youHuawei is the latest in a growing list of automakers and tech companies that are exploring the possible benefits of fitting an EV with solid-state batteries, with the likes of BMW, Huawei Announces 3,000-km Sulfide-Based Solid-State Battery, Thanks to their solid electrolytes, SSBs promise to be much safer, virtually immune to thermal runaway, and with energy densities that far exceed the best Li-ion
