

## Kosovo wind power project supporting energy storage

GE Vernova signs agreement to supply 73 MW Kosovo onshore wind project. The deal, which was booked in the first quarter of 2023, will enable both companies to support Kosovo in its goal of adding significantly more renewable energy by 2030. GE Vernova's Wind Turbines to Deliver Clean Energy for Thousands in Kosovo. GE Vernova announced it has signed an agreement to supply, service, and commission 12 of its 6.1 MW-158m onshore wind turbines for Alrik Renewables's Zatriq I & II Wind Farms in Kosovo, a deal recorded in the Selac Project Kosovo | enlight Renewable Energy. The project has been operational since the first quarter of 2023, and is the largest of its kind in Kosovo, utilizing 27 turbines from General Electric. The wind farm supplies electricity to the Government of Kosovo. The Government of Kosovo publishes an Information Brief for In order to inform prospective bidders with relevant information on anticipated requirements so that they can take appropriate steps to prepare their submission for the planned tender, the Ministry of Economy in the Republic of Kosovo. GE Vernova, Alrik Renewables, Kosovo wind project, wind energy. GE Vernova will supply 12 onshore wind turbines to Alrik Renewables for a 73 MW project in Kosovo, expanding both companies' roles in Europe's renewable energy transition. First Meeting of the Board of Directors. 25 Battery Energy Storage Systems (BESS): Implement BESS with a total capacity of 170 MW/340 MWh to support grid stability and integrate energy sources. Future Preparedness: Prepare for Energy Vault, EU Green Energy Sign Framework Agreement for The agreement covers the deployment of up to 1.8 GWh of Battery Energy Storage Systems (BESS) over the next four years, paving the way for broader support of EU Green Energy. Kosovo's Energy Storage Revolution: How 200MWh Batteries Enter the 200MWh battery storage project, funded by a \$234 million U.S. grant [1] [2]. This isn't just a Band-Aid fix; it's a leap toward grid stability and renewable energy. ROADMAP TO A SUSTAINABLE ENERGY FUTURE FOR DEVELOPING COUNTRIES. COMPREHENSIVE ENERGY STRATEGIES WITH CLEAR DECARBONIZATION TARGETS, AIMING FOR A RENEWABLE ENERGY SHARE OF AT LEAST 45% BY 2030, IN THE BALTIK REGION. GE Vernova Signs Agreement to Supply 73 MW Kosovo Onshore Wind Project. The deal, which was booked in the first quarter of 2023, will enable both companies to support Kosovo in its goal of adding significantly more renewable energy by 2030.
