

## Latvia installs solar energy storage power station

SUNOTEC, one of Europe's leading renewable energy development and construction companies, has acquired 100% of the share capital in SIA DSE Lazas Solar from Danish greenfield developer Danish Sun Energy ApS to build a new PV solar power plant with a total capacity of 400 MWp. SUNOTEC, one of Europe's leading renewable energy development and construction companies, has acquired 100% of the share capital in SIA DSE Lazas Solar from Danish greenfield developer Danish Sun Energy ApS to build a new PV solar power plant with a total capacity of 400 MWp (megawatts DC) with a Latvia state-owned utility and power generation firm Latvenergo intends to deploy 250MW/500MWh of BESS in the next five years. Latvenergo said it will build the battery energy storage system (BESS) projects in response to increasing demand for flexibility and to synergise with its hydropower. A 84 MW of solar and 26 MW of energy storage portfolio will be installed in Latvia under the Niam-Evecon partnership. Discover the full project details here. The Collaboration of Niam, Evecon will also introduce 26 MW of energy storage linked to solar installations. (Photo Credit: Niam) Hydroelectric power is the main source of renewable electricity in Latvia, followed by solar, wind and biomass cogeneration plants. In 2023, solar power in Latvia grew over 3.1 times to 6.7% of total electricity, becoming the third-largest source, while wind reached a record 38 GWh and hydropower. European Energy recycles capital through the sale of a 111 MW solar and storage project to an institutional investor. European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to Sampension, one of Denmark's largest pension funds. The project combines a 65 MW solar PV plant. SUNOTEC acquires 400MWp solar, 600MWh European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. Danish Sun Energy sells large-scale co-located. After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov 2023, we have now completed the second utility-scale project at Ready-to-Build stage on SUNOTEC's 400MW Solar & 600MWh BESS Project. SUNOTEC builds massive solar and battery storage project in Latvia, boosting renewable energy, energy independence, and economic growth. A game-changer for Latvia's energy future. Latvia: Latvenergo to deploy 250MW/500MWh. Latvenergo said it will build the battery energy storage system (BESS) projects in response to increasing demand for flexibility and to synergise with its hydropower, gas-fired plants and solar and wind. SUNOTEC buys 400-MWp solar, 600-MWh. Bulgarian-German renewable energy development and construction company SUNOTEC has acquired a project in Latvia that combines 400 MWp of solar capacity with 600 MWh battery storage from Niam, Evecon launch 110 MW Latvian solar storage initiative. A 84 MW of solar and 26 MW of energy storage portfolio will be installed in Latvia under the Niam-Evecon partnership. Discover the full project details here. Latvia's path to energy transition: Expanding. In the same year AJ Power invested over EUR6 million to deploy battery energy storage systems at its solar power plants in Valmiera, Aizkraukle, and Ilukste, enhancing grid stability and renewable integration. European Energy divests combined solar and battery park in. European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to

## Latvia installs solar energy storage power station

Sampension, one of Denmark's largest pension funds. The project combines a 65 Targale Solar Park: 148 MW solar energy in Stelo Orienta, a subsidiary of European Energy, will start the construction of the solar farm at the beginning of . The solar farm is expected to be fully grid-connected in Q1 of , making it possible to Niam Infrastructure and Evecon partner up for 110 Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia NOTEC acquires 400MWp solar, 600MWh BESS project European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. Danish Sun Energy sells large-scale co-located park with 400 After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov , we have now completed the second utility-scale SUNOTEC's 400MW Solar & 600MWh BESS Project Supercharges Latvia's EnergySUNOTEC builds massive solar and battery storage project in Latvia, boosting renewable energy, energy independence, and economic growth.
