What is the best portable power station for camping? EcoFlow Delta Mini (882Wh) (Update: Out of stock): When we tested it, this model hit a sweet spot of basic functionality, capacity and price, earning it a spot on our list as the best portable power station for camping. It also supported charging with solar panels. Unfortunately, it's no longer available for sale. How do I choose a portable power station? Here are the all the key factors you'll want to look at when deciding on a portable power station. Size: Portable power stations come in a wide array of sizes and capacities, from the small and compact EcoFlow River 3, to the more spacious Anker Solix F3800, which stretches the limits of the word "portable" despite coming with wheels. What accessories do you need for a portable power station? One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C300 also includes a pop-up camping light. What is the best portable power station? Editor's Note: We updated our Portable Power Stations guide on June 6, , to add the EcoFlow River 3 Plus, our new best budget choice; the Anker C300 DC, our choice for best backpack power station; the workhorse Bluetti Elite 200 V2; Bluetti's pro-photographer-centric Handsfree 2 Backpack, and the extra-portable Bouge RV JuiceGo. What are the performance metrics for portable power stations? Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station. What are the best portable power storage brands in China?
