

## Portable Battery Cabinet Ranking

---

Which battery is best for a portable power station? These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust. Is a portable power station worth it? Sure, it isn't going to power your house through a days-long outage, but it offers a lot of nice features for the price, making it one of the better values out there, especially if you can pick it up on sale. How long do portable power stations last? A portable power station's lifespan depends on the type of battery inside. What is the best portable power station? With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels. What is the difference between a power bank and a portable power station? Size is the main difference between the best power banks and the best portable power stations. Power banks are typically compact with small capacities designed to charge smartphones and other small gadgets. Power stations have far larger capacities and can potentially run small appliances and larger gadgets. What is the best portable power station for home backup? For those who need reliable power without the bulk, the Anker SOLIX C1000 delivers a surprising punch in a small package. It's easily one of the best lightweight portable power stations for home backup and is especially suited for apartments, travel trailers, or short-term outages. Which Anker power station has the best battery capacity? Anker's top-of-the-line power station is the Anker SOLIX F3800 Plus (which I'll get to next!). That one has a 3,840Wh battery capacity, measures 27.6" x 15.3" x 15.6in, and weighs 136.7lbs. The Anker SOLIX F3000 has a 3,072Wh battery, which is less, but not by too much. In exchange, it has a more manageable 25.6" x 11.8" x 14.8in size and weighs 91.5lbs. Editor's Note: We updated our Portable Power Stations guide on June 6, 2023, to add the EcoFlow River 3 Plus, our new best budget choice; the Anker C300 DC, our choice for best backpack power station; the workhorse Bluetti Elite 200 V2; Bluetti's pro-photographer-centric Editor's Note: We updated our Portable Power Stations guide on June 6, 2023, to add the EcoFlow River 3 Plus, our new best budget choice; the Anker C300 DC, our choice for best backpack power station; the workhorse Bluetti Elite 200 V2; Bluetti's pro-photographer-centric Our new top pick, the Bluetti Elite 200 V2, stood out for its exceptional battery capacity--among the highest of any model we tested that isn't a whole-house unit--plus its rugged build quality and reliable output. It's not the only high-performing option, however. All of the following models make The best portable power station keeps you up and running whether you need a power supply unit for camping, traveling, home back-up, or life on the road. Each unit I've selected here accepts both mains and solar charging for those who need reliable off-grid power supply. With over 40 top-rated power The Anker SOLIX F3000 takes the best of Anker's top-end power station line and makes it more portable without sacrificing performance. Expensive at MSRP (buy in a sale!) After spending many weeks testing the Anker SOLIX F3000, I have
