

Select an outdoor scene base station

How do I set up a Wyze base station? In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Wi-Fi Network. Follow the on-screen steps to finish the setup. Now that your Wyze Base Station is all set up, it's time to add your Wyze Cam Outdoor. Move on to the next article, Wyze Cam Outdoor Setup Guide.

How do I set up a base station? Set up the base station using either the tripod or T-bar mounting method. You must use an external radio antenna kit for the internal 450 MHz or 900 MHz radio. To avoid interference between the 900 MHz radio and GPRS transmissions, do not mount the external radio antenna within 1 m (3.3 ft) of the GSM antenna.

Does my Wyze Cam Outdoor need a base station? Unlike other Wyze cameras, your Wyze Cam Outdoor must be connected to a Base Station to work. This article explains why. Without a Wyze Base Station, the camera's range would be limited to that of the local Wi-Fi. Since the effective range of consumer-grade routers can vary, we wanted to make sure that users had a consistent experience. Why should a base station be placed indoors? Positioning the base station indoors also mitigates the challenge of retrieving video evidence if the outdoor cameras are tampered with, guaranteeing stable, secure, and uninterrupted recording. *The base station supports direct storage using SD cards ranging from 16GB to 256GB.

Where is a base station antenna located? The base station antennas are usually placed on rooftops, in masts or on building walls. Antennas are sometimes also installed in shopping malls, airports, offices, and other places with many mobile phone users. Indoor antennas are usually placed on walls or on ceilings. Each base station can only serve a limited number of mobile devices at a time.

What is Xiaomi outdoor camera base station? Customer Support 9. Safety Information 1.
