

# Slovenian Energy Storage Export Company

---

What is Slovenia's energy industry like? Slovenia's energy companies are active in developing innovative electricity transmission and distribution solutions, while the country's energy infrastructure is among the strongest in the region. Ministry of the Environment, Climate, and Energy Langusova 4, SI- Ljubljana, Slovenia How much electricity does Slovenia export? In , Slovenia exported approximately 1.3GWh of electricity per year'. Slovenia has three cross-border interconnections with Austria, two with Italy and eight with Croatia, all of which are managed by ELES. Does Slovenia have gas storage facilities? Slovenia does not have gas storage facilities, and is dependent on infrastructure in Austria and Croatia. Slovenia has expressed interest in securing U.S. LNG sources via terminals in Krk, Croatia, or Rovigo, Italy, to diversify its supply. Beginning in , Geoplin booked additional capacity to acquire LNG from the Krk terminal. Is nuclear energy the future of Slovenia's energy mix? In July , following Parliament's approval of Slovenia's long-term climate strategy, the Ministry of Infrastructure issued the energy permit for the second reactor at Krsko nuclear power plant, sending a strong signal on the future role of nuclear energy in Slovenia's energy mix. Does Slovenia have a natural gas supply contract with Gazprom? The state-owned gas company Geoplin signed a five-year natural gas supply contract with Gazprom in to import 600 million cubic meters of Russian natural gas per year. Russia's February invasion of Ukraine, however, forced Slovenia to reconsider its energy policy and seek alternate sources. Will Slovenia build a new gas interconnector with Hungary? Slovenia's natural gas infrastructure company Plinovodi hopes to work with Hungary's FGSZ to construct a new gas interconnector to link Hungary and Slovenia, a project the EU has designated as a Project of Common Interest and which qualifies for funding through the Connecting Europe Facility.
