

## Solar Panel Shipment Ranking

According to official data, JinkoSolar emerged as the top PV module supplier in with an impressive shipment volume of 92.9 GW, securing the global No.1 position. LONGi Green Energy followed in second place with 82.32 GW of shipments, while JA Solar ranked third with 79.447 GW. According to Solarbe Global and InfoLink Consulting data, the Global Top 4 -- Jinko Solar, LONGi, Trina Solar, and JA Solar -- maintain almost half of the global market, with a 48.5% combined share. However, the gap with the rest of the competitors is narrowing, marking the start of a more competitive market.

The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in , nearly doubling the previous year's volume, according to Wood Mackenzie's new Global Solar Module Manufacturer Rankings report. Despite this surge in shipments, the leading PV module manufacturers in the first three quarters of , there should be no suspense in the top 10 list of global PV module shipments, with Jinko Solar now leading JA Solar by around 10GW with shipments of 67.65GW in the first three quarters, followed by LONGi and Trina with 16GW and 15GW respectively. Compared with the previous year, the total shipment volume of the top ten manufacturers in was 413 GW, while that of reached 502 GW. Despite a 22% annual growth rate, sluggish demand and oversupply in have hindered the momentum for significant annual growth.

According to InfoLink's statistics for , the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as the top PV module suppliers by shipment in H1. After thorough research and field visits by Solarbe and Solarbe Consulting, we hereby announce the first half-year PV module shipment rankings for your reference: Jinko Solar firmly holds the top spot in module shipments, achieving over 41GW in module sales (excluding cells), demonstrating the dominance of the "F4" giants. Explore the top 10 global PV module suppliers of . JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina -- the new "F4" giants. As the financial reporting season for concludes, the global solar photovoltaic (PV) industry has unveiled its latest shipment rankings. According to Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production capacity and 89% of global production capacity.

Top 10 Global Shipments of Solar Modules in the Risen Energy, DAS Solar and Yingli Solar are in the race for 9th to 10th place with shipments of 14GW to 15GW in the first three quarters of . Competition for the 9th and 10th positions is quite fierce, with a significant gap between the 8th and 9th place. According to InfoLink's global module shipment ranking: significant gap between the 8th and 9th place. According to InfoLink's statistics for , the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as the top PV module suppliers by shipment in H1. After thorough research and field visits by Solarbe and Solarbe Consulting, we hereby announce the first half-year PV module shipment rankings for your reference: Global PV Module Shipments: The Rise of the "F4" GiantsExplore the top 10 global PV module suppliers of . JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina -- the new "F4" giants. As the financial reporting season for concludes, the global solar photovoltaic (PV) industry has unveiled its latest shipment rankings. According to InfoLink's statistics for , the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as the top PV module suppliers by shipment in H1.

## Solar Panel Shipment Ranking

YoY, showing that the annual growth rate has begun to narrow, as previously predicted, with smaller growth in Q3-Q4. Infolink releases global ranking of photovoltaic (PV) module shipments. Infolink Consulting has released the global photovoltaic module supply ranking for the first half of 2019. In a survey of manufacturers, changes were detected in the major global leaders. Jinko Solar ranks first, followed by SunPower, Trina Solar, and Canadian Solar. The top 10 PV module manufacturers shipped a total of 226 GW, with the leading four companies contributing to 63% of this volume, highlighting a growing oligopoly in the solar panel industry.

Data source: U.S. Energy Information Administration, Form EIA-63B, Annual Photovoltaic Module Shipments Report  
Note: Monthly data for 2019 are based on a subset of the largest Top 10 solar panel manufacturers by global shipments.

**Top 10 Solar Panel Manufacturers by Global Shipments (Q1-Q3 2019)**  
During the first three quarters of 2019, the photovoltaic industry has reached a new balance among the solar ranking. Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production.

**Top 10 Global Shipments of Solar Modules in the First Three Risen**  
Energy, DAS Solar and Yingli Solar are in the race for 9th to 10th place with shipments of 14GW to 15GW in the first three quarters of 2019. Competition for the 9th and 10th place is intense.

**Global ranking of solar panel shipments in 2019 | Europe Solar**  
According to InfoLink's statistics for 2019, the top ten shipped around 502 GW of modules, up 22% YoY, showing that the annual growth rate has begun to narrow, as previously predicted.

Infolink releases global ranking of photovoltaic (PV) module shipments. Infolink Consulting has released the global photovoltaic module supply ranking for the first half of 2019. In a survey of manufacturers, changes were detected in the major global PV Module Shipment Ranking in 1H | RTS Corporation.

The top 10 PV module manufacturers shipped a total of 226 GW, with the leading four companies contributing to 63% of this volume, highlighting a growing oligopoly in the solar industry.
