---

African Development Bank approves \$29.5 million The African Development Bank (AfDB) board of directors announced the approval of a EUR26.5 million (\$29.5 million) financing package to construct a 62 megawatt-peak (MWp) solar photovoltaic power plant in Sokodé, Togo. Togo breaks ground on solar-plus-storage projectConstruction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 hectares, along with AfDB Backs EUR26.5M Solar Plant Project in Togo The solar power plant will strengthen energy security in Togo. Recently, Togo began building another solar power plant in Dapaong, which should be ready in 13 months. African Development Bank's EUR26.5 Million Solar Investment to Togo's new solar farm, co-developed by EDF and Meridiam with support from AfDB, SEFA, and Proparco, will generate 87 GWh of clean electricity annually - strengthening energy security, African Solar Energy: Togo Leads the Energy This plant, the largest in West Africa, uses solar tracking technology that maximizes panel efficiency. It significantly contributes to reducing CO2 emissions, with more than one million tons avoided over its lifetime, and Togo's \$28.9M Solar Project Advances Renewable Energy GoalsDeveloped by Meridiam and Électricité de France (EDF), the project is integral to achieving Togo's goal of installing 200 MWp of renewable energy capacity, enhancing the country's Togo advances energy transition with new 62 MW Solar plant in Togo has taken a major step forward in its renewable energy push with plans to build a 62 MWp solar power plant in Sokodé. The project, backed by a EUR26.5 million (17.4 billion CFA francs) AMEA Power to Expand the Capacity of its Solar Dubai, United Arab Emirates; November 23, : AMEA Power, one of the fastest growing renewable energy companies in the Middle East, announced today the expansion of the 'Sheikh Mohamed Bin Zayed Solar Power Togo solar power: Impressive 42MW Plant Boosts EnergyThe plant, which will utilize various solar panel raw materials, is expected to take 12 months to construct on a 92-hectare site in the Tchaoudjo 1 district of Sokodé. A Step African Development Bank approves \$29.5 million for solar plant in TogoThe African Development Bank (AfDB) board of directors announced the approval of a EUR26.5 million (\$29.5 million) financing package to construct a 62 megawatt-peak (MWp) Togo breaks ground on solar-plus-storage projectConstruction of a utility-scale solar-plus-storage project is now underway in northern Togo.
