

Vatican City Market Installs Solar Power Generation for Home Use

Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar. The Vatican will become the first country in the world to produce 100% of its electricity from renewable energy. In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the Vatican City now runs fully on solar power.

On May 29, 2012, the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. The heart of this change is located at Santa Maria di Galeria, a former Vatican solar farm will make it the world's first carbon neutral country. Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City. Vatican City will run solely on solar power.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside the Vatican. The Vatican Goes Green: Pope Francis There's no country anywhere on Earth that's entirely powered by renewable energy every day, but that's soon to change. In a letter released on June 21 entitled "Brother Sun" Pope Francis announced Pope Francis unveils plan for Vatican to go solar.

Pope Francis has announced measures to transition Vatican City to using solar energy as its main source of electricity, as outlined in his latest motu proprio titled Fratello Sole, or Vatican City Completes Move to Solar Powered Energy. As a result of the completion of this project, Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia, and the Democratic Republic of Congo as the Vatican goes green, Pope orders solar to be sole energy source.

Pope Francis has ordered the Vatican to install a solar plant that will provide electricity to the entire city state, as the pontiff does his bit to tackle climate change. Vatican strikes solar farm deal to become the world's first carbon neutral country. Italy has agreed to a Vatican plan to turn a plot of land north of Rome into a solar farm that will generate enough electricity to meet the needs of Vatican City.

Vatican City Is Now Powered By Solar To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could power the Vatican. The Vatican will become the first country in the world to produce 100% of its electricity from renewable energy. In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the Vatican City now runs fully on solar power.
