

Vietnam professional solar panel manufacturer direct sales

Who makes solar panels in Vietnam? In particular, the company produces monocrystalline and polycrystalline solar panels with current capacities that range from 3W to 320W. Located in the suburban area of Ho Chi Minh City, Vietnam, Solar Power Vietnam makes use of solar cells from Solar World (Germany) and Suniva (the U.S.A.).

How to choose a solar energy company in Vietnam? As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Vietnam is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

Why are solar inverters certified in Vietnam? For the solar inverter manufacturers in Vietnam, the certification process ensures that their products are safe, reliable, and efficient. It also helps build trust with customers, as they can be confident in the quality and performance of the certified solar inverters.

Where are allessun solar panels made? The company has its headquarters in San Jose, U.S.A., but it also owns two marketing or sales companies in Canada and the U.S.A. and two manufacturers in Vietnam and India. Allessun's PV modules are manufactured with the supervision of the ISO90001 standard. As a result, they have obtained TUV/Intertek (IEC CE) and CSA (UL) certificates.

Are solar panels regulated in Vietnam? In Vietnam, the certification for solar panels and solar inverters is strictly regulated by the Directorate for Standards, Metrology, and Quality (STAMEQ) under the Ministry of Science and Technology.

Why should you choose a PV service company in Vietnam? Being led by a mission to constantly strive for the best, high efficiency PV products, as well as supreme value-added services to customers, its focus lies not just on the premium market, but also the average Vietnamese market in terms of maintenance operations.
