

Yard Solar System

If you're wondering, "Can I put solar panels in my yard?" the answer is a resounding yes. Backyard solar panels, also known as ground-mounted solar systems, offer an efficient, flexible alternative to traditional rooftop installations. Ground-mounted solar panels operate like a typical rooftop system but are generally more efficient. Ground-mounted solar panel installations cost about \$61,880 on average before incentives. They're usually more expensive than roof-mounted systems, but can maximize your renewable energy production. Ground-mounted solar panels are a great alternative for customers who want solar - but don't have a roof that's suitable for them. On top of being an alternative to rooftop solar, ground-mounted solar systems can be used on farms, in your garden, and more! In this article, we'll explain what a
